GREEN SKILL DEVELOPMENT PROGRAMME (GSDP)

Certificate Course on "Wildlife Management using Geospatial Techniques"

GOVERNMENT OF INDIA

MINISTRY OF ENVIRONMENT, FOREST AND CLIMATE CHANGE (MoEF&CC), NEW DELHI
WWF-India, ENVIS (RP) is going to conduct Certificate Course on “Wildlife Management using Geospatial Techniques” (Level-6 of NSQF) under the Green Skill Development Programme of the Ministry of Environment, Forest and Climate Change, Government of India. The course is free of cost and only the candidates who are science graduates and **unemployed** can apply for this course.

Applicants may apply on the following link: [http://www.gsdp-envis.gov.in/Default2.aspx](http://www.gsdp-envis.gov.in/Default2.aspx)

The course aims at imparting knowledge and skills on Remote Sensing, GIS & GPS with their use and applications in the wildlife management field. Specific topics to be covered under the course are Overview of Remote Sensing & GIS techniques, Wildlife Management and its applications using GIS, Processing and Classification of Remotely Sensed Images, Global Navigation Satellite System, GIS Database Creation and GIS Analysis, Output and Project Design. After completion of this course, trainees would get the overall idea of Wildlife Management and its applications, different types of geospatial queries and models, their properties and importance. They would be able to identify the possible threats to the wildlife and techniques with the help of geospatial analysis.

**Entry of applicants to the course has been closed during the current FY 2019-2020.**
